Embracing excellence with a gentle touch,  
we stand steadfastly by your side.

Circulation. Our aim is to produce products that will remain by the customer's side for an extended period, offering a sense of comfort.

NAGAE+ Our company is deeply rooted in Takaoka-shi, Toyama, a city that has a rich history of metalwork craftsmanship dating back over 400 years. Takaoka flourished as a centre for copperware production, supported by the Kaga Domain, the largest clan under the Edo government. NAGAE+ is proud to be a part of this tradition. We hold a strong commitment to maintaining the balance between precision and creativity in our products and in our approach. At the heart of our philosophy is the craftsmanship that drives us.

We bring together the elements of "materials," "design," "manufacturing," and "users" to create exceptional products. Our goal is to collaborate with our customers and co-create value that goes beyond mere functionality.
